GHADI SAEED ALGHAMDI

Computer Science Graduate | Software Developer | AI & Web Applications

Jeddah, Saudi Arabia I ghadi6249@gmail.com I +966542180091 I www.linkedin.com/in/ghadiseed I github.com/ghadiSaeed

SUMMARY

Computer Science graduate with hands-on experience in software development and AI-powered applications. Experienced in building web applications, integrating AI models and APIs, and developing NLP-based solutions. Interested in Software Engineering, AI Application Development, and Web Technologies.

TECHNICAL SKILLS

Programming: Python, Java, C/C++, JavaScript, TypeScript

AI & Machine Learning: NLP, Transformer Models, MARBERTv2, AraBERT, Emotion Classification, OpenAI API

Web Development: HTML, CSS, React, Flask, Firebase

Databases & Cloud: SQL, Google BigQuery

Tools: Git, GitHub, Figma, Power BI

PROFESSIONAL EXPERIENCE

Data Engineering Intern, Saudi National Bank (SNB) — Jeddah Jun 2025 – Aug 2025

- Developed SQL-based data transformation, validation, and data quality workflows using Google BigQuery.
- Worked with structured banking data across seven core domains, including customers, accounts, transactions, cards, loans, branches, and relationship managers.
- Developed a Power BI dashboard analyzing 450K+ POS transactions, providing insights into transaction patterns and business performance.

PROJECTS

Anah – AI-Powered Mental Health Platform | Graduation Project

- Developed an Arabic AI-powered mental health platform combining NLP-based emotion analysis, intelligent journaling, mood tracking, and personalized recommendations.
- Fine-tuned MARBERTv2 and AraBERT transformer models for Arabic emotion classification, achieving 91.7% accuracy and 0.92 Macro F1-score.
- Integrated OpenAI APIs to support AI-powered conversational features and personalized user interactions.
- Built the web application using HTML, CSS, and JavaScript, with Firebase for application data and backend services.

InsightMind AI – AI Research Assistant | Personal Project

- Conceptualized and developed an AI-powered research assistant designed to help users analyze research papers, generate summaries, and explore academic content.
- Used AI-assisted development workflows to translate the product concept into a functional application, iteratively refining generated code and features.
- Tested and reviewed the application, identifying bugs, correcting issues, and validating core features to ensure a functional and user-ready product.

EDUCATION

Bachelor's Degree in Computer Science — University of Jeddah 2021 – 2026

GPA: 4.63 / 5.0

LANGUAGES

Arabic (Native) | English (Advanced)
