

GHADI SAEED

COMPUTER SCIENCE GRADUATE | SOFTWARE DEVELOPER | AI & WEB DEVELOPMENT

Jeddah, Saudi Arabia | ghadi6249@gmail.com | +966542180091 | www.linkedin.com/in/ghadiseed | github.com/ghadiSaeed

SUMMARY

Computer Science graduate with experience in software development, AI applications, and web technologies. Developed an AI-powered Arabic mental health platform involving NLP, OpenAI API integration, Firebase, and cloud deployment. Completed a Data Engineering internship at Saudi National Bank and with a strong interest in building intelligent software solutions.

TECHNICAL SKILLS

Programming Languages	AI & Machine Learning	Data & Cloud	Tools & Technologies
Python, Java, SQL, C++, C	NLP, Transformer Models,	Google BigQuery,	Git, GitHub, Power BI,
Web Development	Emotion Classification, Data	Firebase	DAX, Figma, Render
HTML, CSS, JavaScript	Preprocessing, Model Evaluation		

PROFESSIONAL EXPERIENCE

Data Engineering Intern, Saudi National Bank (SNB) — Jeddah Jun 2025 – Aug 2025

- Worked with SQL-based data transformation, validation, and data quality workflows using Google BigQuery.
- Applied dimensional modeling concepts and designed Entity-Relationship Diagrams (ERDs) to structure data for analytical use.
- Worked with banking datasets covering customers, accounts, transactions, cards, loans, branches, and relationship managers.
- Built a POS Transactions Insights dashboard in Power BI to analyze transaction activity and present business insights to department stakeholders.

PROJECTS

Anah – AI-Powered Mental Health Platform | Graduation Project

- Developed an AI-powered Arabic mental health web platform featuring emotion-aware journaling, mood tracking, and personalized recommendations.
- Built responsive and user-centered web interfaces using HTML, CSS, and JavaScript.
- Integrated OpenAI APIs and Firebase services to support core application functionality and data management.
- Fine-tuned Arabic NLP transformer models, including MARBERTv2 and AraBERT, for emotion classification.

InsightMind AI – Research Assistant | Personal Project

- Developed a web-based research assistant focused on helping users explore and work with research papers.
- Implemented workflows for research document interaction, AI-assisted Q&A, mind map generation, and presentation creation.
- Designed the interface with a focus on usability, clear information organization, and research-oriented user experience.
- Built the web application using AI-assisted development while defining the project concept, structure, interface, and functionality.

EDUCATION

Bachelor's Degree in Computer Science — University of Jeddah 2022 – 2026

GPA: 4.63 / 5.0

LANGUAGES

- **Arabic** (Native)
- **English** (Advanced)
