

GHADI SAEED

COMPUTER SCIENCE GRADUATE | SOFTWARE DEVELOPER | AI & WEB DEVELOPMENT

Jeddah, Saudi Arabia | ghadi6249@gmail.com | +966542180091 | www.linkedin.com/in/ghadiseed | GitHub: ghadiSaeed

SUMMARY

Motivated Computer Science professional with hands-on experience in AI, software and web application development, and data analytics. Built end-to-end analytics solutions using SQL and Power BI, delivered business insights during a Data Engineering internship at Saudi National Bank (SNB), and developed multiple academic projects. Interested in AI-driven applications, building scalable software and web solutions, and leveraging data analytics to enhance product and business outcomes.

TECHNICAL SKILLS

Programming:
Python, SQL, Java, C/C++

Data & BI:
Power BI, DAX,
Data Modeling (Fact–Dimension),
Data Cleaning

Web & Design:
HTML, CSS, JavaScript, Figma

PROFESSIONAL EXPERIENCE

Data Engineering Intern, Saudi National Bank (SNB) — Jeddah Jun 2025 – Aug 2025

- Built an end-to-end POS analytics dashboard using Power BI and presented insights to department leadership.
- Developed SQL pipelines in Google BigQuery for data cleaning, validation, and transformation.
- Applied fact–dimension modeling and designed ERDs to ensure data integrity and optimize analytical performance.
- Authored a Business Requirements Document (BRD) and aligned KPIs with stakeholders.

PROJECTS

Anah – Graduation Project

- Developed an end-to-end system with AI and machine learning components, focusing on system architecture, data flow, and user-centered features.

Coffee Bee App (Java) – Team Project

- Built a delivery and pickup app with ordering workflows; contributed to backend logic and UI in Java.

Event Management Database (SQL) – Team Project

- Designed a relational database and implemented SQL queries for schema design and basic performance optimization.

EDUCATION

Bachelor's Degree in Computer Science — University of Jeddah 2022 – 2026

GPA: 4.68 / 5.0 | Expected Graduation: 2026

ADDITIONAL INFORMATION

- Languages:** Arabic (Native), English (Advanced)
- Achievements:** Winner – HealthTech Hackathon 2025
- Certifications:** Power BI (3 certified courses), Network Programming, Coursera (66 training hours), FutureX (39 technical skills), SNB Academy – Cooperative Training Program (Data Engineering Internship)

GHADI SAEED

COMPUTER SCIENCE GRADUATE | SOFTWARE DEVELOPER | AI & WEB DEVELOPMENT

Jeddah, Saudi Arabia | ghadi6249@gmail.com | +966542180091 | www.linkedin.com/in/ghadiseed | github.com/ghadiSaeed

SUMMARY

Computer Science graduate with experience in software development, AI applications, and web technologies. Developed an AI-powered Arabic mental health platform involving NLP, OpenAI API integration, Firebase, and cloud deployment. Completed a Data Engineering internship at Saudi National Bank and passionate about building intelligent software solutions.

TECHNICAL SKILLS

Programming Languages	AI & Machine Learning	Databases & Cloud	Tools & Technologies
Python, Java, SQL, C++, C	NLP, Transformer Models,	Firebase, Google	Git, GitHub, Power BI,
Web Development	Emotion Classification, Data	BigQuery	DAX, Figma, Render
HTML, CSS, JavaScript	Preprocessing, Model Evaluation		

PROFESSIONAL EXPERIENCE

Data Engineering Intern, Saudi National Bank (SNB) — Jeddah Jun 2025 – Aug 2025

- Built an end-to-end POS analytics dashboard using Power BI and presented insights to department leadership.
- Developed SQL-based data transformation and validation workflows using Google BigQuery.
- Applied fact-dimension modeling and designed ERDs to support analytical reporting.
- Authored a Business Requirements Document (BRD) and collaborated with stakeholders to define reporting requirements.

PROJECTS

Anah – AI-Powered Mental Health Platform

- Developed an AI-powered Arabic mental health web platform for emotion-aware journaling, mood tracking, and personalized recommendations.
- Built responsive web interfaces using HTML, CSS, and JavaScript with a focus on usability and user-centered design.
- Integrated OpenAI APIs, Firebase database services, and cloud deployment workflows to support core platform functionality.
- Fine-tuned Arabic NLP transformer models including MARBERTv2 and AraBERT for emotion classification, achieving 91.7% accuracy and 0.92 Macro F1-score.

Coffee Bee App (Java) – Team Project

- Developed features for a coffee ordering and delivery application using Java.
- Implemented business logic and user interface components using OOP principles.

Event Management Database (SQL) – Team Project

- Designed and implemented a relational database system using SQL.
- Developed database schemas, relationships, and reporting queries.

EDUCATION

Bachelor’s Degree in Computer Science — University of Jeddah 2022 – 2026

GPA: 4.63 / 5.0

ADDITIONAL INFORMATION

- Languages:** Arabic (Native), English (Advanced)
- Achievements:** Winner – HealthTech Hackathon 2025
- Certifications:** Power BI, Network Programming, SNB Academy – Cooperative Training Program (Data Engineering Internship)

Portfolio

GHADI SAEED

COMPUTER SCIENCE GRADUATE | SOFTWARE DEVELOPER | AI & WEB DEVELOPMENT

Jeddah, Saudi Arabia | ghadi6249@gmail.com | +966542180091 | www.linkedin.com/in/ghadiseed | github.com/ghadiSaeed

SUMMARY

Computer Science graduate with experience in software development, AI applications, and web technologies. Developed an AI-powered Arabic mental health platform involving NLP, OpenAI API integration, Firebase, and cloud deployment. Completed a Data Engineering internship at Saudi National Bank and with a strong interest in building intelligent software solutions.

TECHNICAL SKILLS

Programming Languages	AI & Machine Learning	Data & Cloud	Tools & Technologies
Python, Java, SQL, C++, C	NLP, Transformer Models,	Google BigQuery,	Git, GitHub, Power BI,
Web Development	Emotion Classification, Data	Firebase	DAX, Figma, Render
HTML, CSS, JavaScript	Preprocessing, Model Evaluation		

PROFESSIONAL EXPERIENCE

Data Engineering Intern, Saudi National Bank (SNB) — Jeddah Jun 2025 – Aug 2025

- Worked with SQL-based data transformation, validation, and data quality workflows using Google BigQuery.
- Applied dimensional modeling concepts and designed Entity-Relationship Diagrams (ERDs) to structure data for analytical use.
- Worked with banking datasets covering customers, accounts, transactions, cards, loans, branches, and relationship managers.
- Built a POS Transactions Insights dashboard in Power BI to analyze transaction activity and present business insights to department stakeholders.

PROJECTS

Anah – AI-Powered Mental Health Platform | Graduation Project

- Developed an AI-powered Arabic mental health web platform featuring emotion-aware journaling, mood tracking, and personalized recommendations.
- Built responsive and user-centered web interfaces using HTML, CSS, and JavaScript.
- Integrated OpenAI APIs and Firebase services to support core application functionality and data management.
- Fine-tuned Arabic NLP transformer models, including MARBERTv2 and AraBERT, for emotion classification.

InsightMind AI – Research Assistant | Personal Project

- Developed a web-based research assistant focused on helping users explore and work with research papers.
- Implemented workflows for research document interaction, AI-assisted Q&A, mind map generation, and presentation creation.
- Designed the interface with a focus on usability, clear information organization, and research-oriented user experience.
- Built the web application using AI-assisted development while defining the project concept, structure, interface, and functionality.

EDUCATION

Bachelor's Degree in Computer Science — University of Jeddah 2022 – 2026
